

3M MPro150 Pocket Projector FACT SHEET

Description:

The 3M MPro150 boasts a brightness of 15 lumens — and a robust battery life of 2 hours. It is the first projector in the 3M Pocket Projector line to feature built-in memory and removable micro SD card, as well as a full suite of applications for business and recreational use.

Product Benefits:

- Microsoft® Office applications (Word, Power Point® and Excel®) and Adobe® PDF support, as well as still and video image projection and MP3 capabilities
- 1 GB internal memory, plus removable micro SD card, Mini USB port, VGA, component and composite connector
- Vibrant display screen with colorful program icons to keep track of documents loaded to the MPro150, as well as a status bar to gauge power, volume, etc., as well as a favorites folder, for managing your files for presentations
- Two integrated, half-watt stereo speakers help transform the MPro150 into a self-contained presentation device for business or entertainment
- Audio output jack enables connection of external speakers for more robust sound, as well as headphones for personal enjoyment
- VGA image and 100 percent HD color gamut gives the user one of the highest quality images of any portable projector currently available
- Projects eight to 50-inch still or moving image
- Uses Liquid Crystal on Silicon (LCOS) technology for superb image quality and minimization of component size
- LED light source with 20,000 hour life means the unit is environmentally friendly and there is no need for a replacement bulb
- Featuring an integrated flip stand, tripod and variety of input cables, the MPro150 is ready to use “out-of-the-box”

Package Components:

MPro150 projector, battery, micro SD card, computer cable, video cable, RCA adapter, USB cable, AC power adapter, tripod, quick-start guide, protective sleeve

Optional Accessories:

Available optional accessories for the MPro150 include: adapter cable for Apple® products (iPod®, iPod touch®, iPhone®), component video cable, presentation binder with screen, and car charger. Optional accessories are sold separately.
